PROGRAMME REPORT

Name of the Event : Swachh Bharat- Campus Cleaning and Awareness
Date : 31.10.2022
Organized by : NSS
No of Beneficiary : 62

- On 31st October 2022, our Institution enthusiastically participated in the Swachh Bharat - Campus Cleaning and Awareness campaign, aligning with the nationwide initiative to promote cleanliness and environmental awareness.
- This event aimed not only to enhance the cleanliness of our campus but also to instill a sense of responsibility and environmental consciousness among the campus community.
- The primary objective was to conduct a comprehensive cleaning drive across the campus to create a pristine and healthy environment conducive to learning and well-being.
- The campaign sought to raise awareness about the importance of cleanliness, waste reduction, and sustainable practices among students, faculty, and staff.
- Encouraging active involvement of the entire campus community to foster a collective sense of responsibility towards maintaining a clean and green campus.
- Participants engaged in a large-scale cleaning drive, focusing on classrooms, common areas, walkways, and outdoor spaces. Proper waste disposal and recycling were emphasized during the cleaning process.
- The event concluded with a community pledge where participants committed to maintaining cleanliness, adopting eco-friendly practices, and contributing to a sustainable and green campus.

OUTCOMES OF THE PROGRAMME

Name of the Event : Swachh Bharat- Campus Cleaning and Awareness
Date : 31.10.2022
Organized by : NSS
No of Beneficiary : 62

Outcomes of the Programme:

- The campaign resulted in a visibly cleaner campus environment, showcasing the effectiveness of community-driven cleaning initiatives.
- Participants exhibited a heightened awareness of environmental issues, with a specific focus on waste management and the importance of maintaining cleanliness.
- The event fostered a sense of community engagement as students, faculty, and staff actively participated in the various activities, reinforcing a collective commitment to a clean and green campus.
- Many participants expressed a willingness to adopt more sustainable practices, indicating a positive shift in behavior toward responsible waste management and environmental conservation.
- The event not only achieved immediate cleanliness goals but also laid the foundation for continued initiatives towards a clean and green campus.

PROGRAMME REPORT

Name of the Event : Zero Tolerance for Plastic-Let's Commit to a Plastic-Free Zone
Date : 24.04.2022
Organized by : NSS
Resource Person : Dr.S.Yogakrishnan
No of Beneficiary : 178

- On 24th April 2022, our institution took a bold step towards environmental sustainability by launching the "Zero Tolerance for Plastic" campaign, reinforcing our commitment to becoming a plastic-free campus.
- The initiative aimed to raise awareness, instigate behavioral change, and implement practical measures to eliminate single-use plastics from our campus premises.
- The primary goal was to promote and establish a plastic-free environment on campus, reducing the usage of single-use plastics in daily activities.
- The campaign aimed to educate students, faculty, and staff about the environmental impact of plastic pollution, emphasizing the importance of transitioning to sustainable alternatives.
- Encouraging a significant shift in behavior by fostering a commitment to reduce, reuse, and recycle, ultimately leading to the elimination of single-use plastics.
- An initial plastic collection drive was organized to raise awareness about the volume of plastic waste generated on campus. The collected plastics were appropriately disposed of to highlight the need for responsible waste management.
- Speakers conducted educational seminars on the detrimental effects of plastic pollution on the environment, wildlife, and human health. Practical tips on adopting plastic-free lifestyles were also shared.
- The campaign concluded with a pledge ceremony where students, faculty, and staff committed to reducing their plastic footprint and actively contributing to a plastic-free campus.

Date : 24.04.2022
Organized by : NSS
Resource Person : Dr.S.Yogakrishnan
No of Beneficiary : 178

Outcomes of the Programme:

- The campaign successfully raised awareness among the campus community about the environmental hazards of single-use plastics, fostering a deeper understanding of the issue.
- Participants reported a noticeable reduction in the use of single-use plastics, with many adopting reusable alternatives and embracing a more sustainable lifestyle.
- The campaign facilitated community engagement, creating a sense of shared responsibility and commitment toward making the campus a plastic-free zone.
- The initiative received positive feedback from participants, who expressed enthusiasm for the campaign's objectives and its potential to create lasting change.
- The "Zero Tolerance for Plastic" campaign on 24th April 2022 marked a significant stride towards a clean and green campus.
- The commitment and enthusiasm demonstrated by the campus community underscored the potential for lasting change, setting the stage for continued efforts to eliminate single-use plastics and foster a more sustainable and environmentally conscious campus culture.

PROGRAMME REPORT

Name of the Event : Plant Sapling Nutrition Plant Sapling
Date : 13.03.2022
Organized by : NSS
No of Beneficiary : 86

- On 13th March 2022, our Institution marked a significant milestone in its commitment to sustainability with the organization of a Plant Sapling Planting event, focusing on plants containing nutritional values.
- This initiative aimed not only to enhance the campus greenery but also to promote the cultivation of plants that contribute to nutritional well-being.
- The primary goal was to contribute to the establishment of a nutrient-rich campus environment by planting saplings that contain valuable nutritional elements.
- The event sought to raise awareness among participants about the nutritional benefits of specific plants, promoting a connection between sustainable practices and personal health.
- Encouraging active participation from students, faculty, and staff to foster a sense of shared responsibility for creating a green campus with added nutritional value.
- A careful selection of saplings included plants known for their nutritional content, such as fruit-bearing trees, herbs, and vegetables rich in vitamins and minerals.
- Horticulturist is invited to guide the selection of plants, their nutritional values, and the sustainable practices needed to cultivate them on campus.
- The event concluded with a community nutrition pledge, where participants committed to fostering a green campus environment that not only contributes to sustainability but also promotes personal health through the cultivation and consumption of nutrient-rich plants.

PROGRAMME REPORT

Name of the Event : Orientation Program of World Climate Change Day
Date : 15.05.2019
Organized by : NSS
Resource Person : . Mr. S. Kannan
No of Beneficiary : 168

- On World Climate Change Day, our institution took a proactive step towards fostering environmental consciousness by organizing an Orientation Program on 15.05.2019.
- The event aimed to raise awareness, educate participants about climate change, and inspire collective action for a clean and green campus.
- The primary goal was to increase awareness among students, faculty, and staff about the critical issues associated with climate change, emphasizing the urgency of addressing environmental challenges.
- The program aimed to educate participants on sustainable practices that contribute to climate change mitigation and adaptation, both on campus and in personal lives.
- Through informative sessions and discussions, the program sought to inspire a sense of environmental stewardship and a commitment to sustainable living among the campus community.
- A presentation highlighted the specific impacts of climate change, emphasizing regional and local consequences, and showcasing the importance of immediate action.
- The program commenced with a keynote address from the speaker, providing an overview of the current state of climate change and its implications on a global scale.

Outcomes of the Programme:

- Participants gained a deeper understanding of climate change, its causes, and potential consequences, fostering climate change literacy within the campus community.
- The program inspired many participants to adopt sustainable practices, such as reducing energy consumption, practicing responsible waste management, and utilizing eco-friendly transportation options.
- The event facilitated community engagement, creating a sense of shared responsibility among students, faculty, and staff for addressing climate change at the local level.
- Participants expressed appreciation for the informative sessions and the opportunity to engage in meaningful discussions with experts.
- The Orientation Program for World Climate Change Day served as a catalyst for raising awareness and inspiring positive action towards a cleaner and greener campus.
- The event marked the beginning of a collective journey towards environmental stewardship and a commitment to mitigating the impacts of climate change within the campus community.

PROGRAMME REPORT

Name of the Event : Tree Plantation
Date : 04.03.2019
Organized by : NSS
No of Beneficiary :66

- On 04.03.2019, our Institution undertook a significant initiative to enhance the environmental sustainability and aesthetics of the campus by organizing a Tree Plantation event.
- The primary objective was to contribute to the preservation of the environment, improve air quality, and promote a sense of responsibility for nature among the campus community.
- The primary goal was to increase the campus's green cover by planting a variety of trees, contributing to the overall well-being of the environment.
- The event aimed to promote biodiversity on campus by selecting a diverse range of tree species, creating a more resilient and ecologically balanced ecosystem.
- The program sought to educate participants about the importance of trees in mitigating climate change, improving air quality, and fostering a sense of responsibility towards the environment.
- A careful selection of native and adaptive tree species was made to ensure suitability to the local climate and encourage the growth of a diverse range of trees on campus
- Students, faculty, and staff actively participated in the event, fostering a sense of community engagement and shared responsibility for the campus environment.

OUTCOMES OF THE PROGRAMME

Name of the Event : Tree Plantation
Date : 04.03.2019
Organized by : NSS
No of Beneficiary : 66

Outcomes of the Programme:

- The Tree Plantation event significantly contributed to the increase in greenery across the campus, enhancing its visual appeal and creating a more inviting atmosphere.
- The diverse selection of tree species promoted biodiversity, creating habitats for various species of birds, insects, and other wildlife.
- Participants gained a deeper understanding of the ecological benefits of trees, fostering a heightened awareness of their role in environmental conservation.
- The initiative received positive feedback from participants, with many expressing a sense of pride and satisfaction in contributing to the greening of the campus.
- The Tree Plantation event was a resounding success, reflecting our institution's commitment to creating a clean, green, and sustainable campus environment.
- The event not only added to the campus's natural beauty but also sowed the seeds for a future where environmental responsibility is ingrained in the campus culture.

- On 20.01.2019, our Institution took a significant step towards environmental sustainability by organizing an Orientation Program on Plastic Recycling.
- The initiative aimed to raise awareness about the impact of plastic waste, educate participants on the importance of recycling, and inspire a campus-wide commitment to responsible plastic disposal.
- The primary goal was to raise awareness among students, faculty, and staff about the environmental consequences of plastic waste and the urgent need for responsible plastic disposal.
- The program aimed to educate participants about the process of plastic recycling, emphasizing the benefits of recycling in reducing environmental pollution and conserving resources.
- The program sought to promote responsible plastic use by encouraging participants to minimize single-use plastics, adopt reusable alternatives, and embrace a sustainable lifestyle.
- Presentations delivered on the impact of plastic pollution, the significance of recycling, and the role of individuals in creating a plastic-free environment.

PROGRAMME REPORT

Name of the Event : Plastic Free Campus

Date : 10.10.2018

Organized by : NSS

No of Beneficiary : 46

- Our institution embarked on a transformative journey towards sustainability by launching the Plastic-Free Campus initiative on 10.10.2018.
- This groundbreaking endeavor aimed to eliminate single-use plastics, reduce plastic waste, and foster a culture of environmental responsibility among the campus community.
- The campus implemented a comprehensive ban on single-use plastics, including plastic bags, straws, cutlery, and water bottles. Clear communication and signage were placed across campus to educate and remind individuals about the ban.
- To support the transition away from single-use plastics, the campus introduced and promoted reusable alternatives. Reusable water bottles, eco-friendly cutlery sets, and cloth bags were distributed to students, faculty, and staff.
- Installation of water refilling stations at strategic locations across the campus encouraged the use of reusable water bottles. These stations provided clean and safe drinking water, reducing the reliance on bottled water.
- All campus events and activities were mandated to be plastic-free. This included guidelines for organizers to use alternatives to plastic decorations, plates, and utensils, fostering a sustainable event culture.
- Regular educational campaigns were conducted through workshops, seminars, and awareness sessions.
- These initiatives aimed to inform the campus community about the environmental impact of plastics, the benefits of going plastic-free, and practical tips for sustainable living.

OUTCOMES OF THE PROGRAMME

Name of the Event : Plastic Free Campus
Date : 10.10.2018
Organized by : NSS
No of Beneficiary : 46

Outcomes of the Programme:

- The campus witnessed a considerable reduction in plastic waste, with a noticeable decrease in the usage of single-use plastics.
- The distribution of reusable items, coupled with awareness campaigns, resulted in a substantial increase in the adoption of reusable water bottles, bags, and utensils across campus.
- Surveys and feedback from the campus community indicated a positive shift in behavior, with a growing awareness of the environmental impact of plastics and a willingness to embrace a plastic-free lifestyle.
- The plastic-free initiative garnered strong support from students, faculty, and staff. Many individuals actively participated in events, and workshops, and shared their initiatives to reduce plastic usage.
- The campus landscape improved aesthetically with a reduction in littered plastics. Common areas and green spaces appeared cleaner, contributing to a more visually appealing environment.
- The Plastic-Free Campus initiative has made remarkable progress in reducing plastic waste and instilling a sense of environmental responsibility within the campus community.
- The commitment and support received thus far lay a solid foundation for ongoing efforts to make our campus a model of sustainability and a beacon for responsible living.

PROGRAMME REPORT

Name of the Event : World Environment Day
Date : 05.06.2018
Organized by : NSS
Resource Person : Mrs. K.Abheneya
No of Beneficiary : 144

- The awareness Programme was completed on 5th June 2018. The seminar began with a comprehensive introduction to World Environment Day, highlighting its significance as a global platform for environmental awareness and action.
- The theme for World Environment Day 2018 was "Beat Plastic Pollution." The focus was on encouraging students to reduce single-use plastic consumption and to take steps to combat the growing problem of plastic pollution.
- The seminar aimed to raise awareness about the environmental impact of plastic waste and inspire students to work towards a more sustainable and plastic-free future.
- A presentation highlighted alarming statistics and facts about plastic pollution, helping participants grasp the severity of the issue and its impact on marine life, wildlife, and human health.

OUTCOMES OF THE PROGRAMME

Name of the Event : World Environment Day

Date : 05.06.2018

Organized by : NSS

Resource Person : Mrs. K.Abheneya

No of Beneficiary : 144

Outcomes of the Programme:

- The seminar successfully increased awareness among students about the environmental issues associated with plastic pollution, fostering a greater understanding of its impact on ecosystems.
- Many students exhibited signs of behavioral change, demonstrating a reduced reliance on single-use plastics in their daily lives, both on and off campus.
- The outcomes of the seminar planted seeds for long-term environmental advocacy among students, encouraging them to stay informed, engaged, and committed to making sustainable choices in their personal and professional lives.
- Students get motivated to keep their surroundings green and clean.
