REPORT ON THE SEMINAR

Title: Pharmacoepidemiology: Advancements in Research methodologies and their Relevance to Pharmacy Practice

Date: 10/10/2018

Resource Person: Mr. S. DEEPANCHAKKARAVARTHI, M. Pharm.,

Event Coordinator: Mr. G. M. Sivakumar, M. Pharm.,

Total Participant(s): 109

Event Description:

The "Pharmacoepidemiology: Advancements in Research Methodologies and Their Relevance to Pharmacy Practice" event, held on 10/10/2018, was a pivotal gathering dedicated to exploring the evolving landscape of pharmacoepidemiology research. This comprehensive program united pharmacy professionals, researchers, and epidemiology enthusiasts committed to advancing our understanding of medication-related outcomes and their impact on patient care. Attendees, eager to explore innovative research methodologies, benefited from a comprehensive program led by seasoned experts.

Program Outcome:

The program delivered several significant outcomes. Participants left with an enriched understanding of the advancements in pharmacoepidemiology research methodologies and their direct relevance to pharmacy practice. The insights shared by expert presenters provided practical guidance on conducting rigorous pharmacoepidemiological studies, improving patient safety, and optimizing medication management. Furthermore, the event fostered networking and collaboration, forging connections that may lead to future ground-breaking discoveries and collaborative research projects in pharmacoepidemiology and pharmacy practice. In summary, the "Pharmacoepidemiology" event left an enduring impact, empowering attendees with the knowledge and inspiration to excel in the dynamic and vital fields of pharmacoepidemiology research and pharmacy practice.
