Event Description:

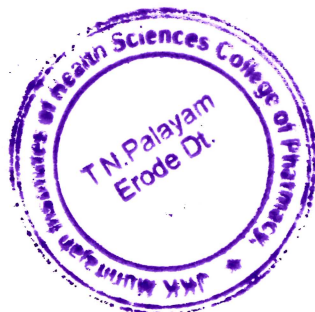

The "Assessing Drug Safety in Pharmacy Practice: Methodologies for Adverse Event Reporting and Analysis" event, held on 20.07.2021, was an essential gathering dedicated to enhancing our ability to evaluate and ensure drug safety within the realm of pharmacy practice. This comprehensive program united pharmacy professionals, healthcare practitioners, and researchers committed to optimizing adverse event reporting and analysis techniques. Attendees, eager to explore methodologies for ensuring the safety of medications, benefited from a comprehensive program led by seasoned experts.

Program Outcome:

The program delivered several significant outcomes. Participants left with an enriched understanding of the critical role of adverse event reporting and analysis in pharmacy practice, equipped with the knowledge and tools to contribute to safer medication use. The insights shared by expert presenters provided practical guidance on how to identify, report, and analyse adverse events effectively. Furthermore, the event fostered networking and collaboration, forging connections that may lead to future advancements in drug safety and collaborative research projects. In summary, the "Assessing Drug Safety in Pharmacy Practice" event left an enduring impact, empowering attendees with the knowledge and inspiration to excel in the dynamic and vital field of pharmaceutical safety assessment.
