INTRODUCTION

Pharmacist is a very good profession. They deal with the chemical and compounds to deal with a disease.

* Pharmacy: Always banded for your health world. Pharmacists Day on 25 September, FIP announced. At the time when bank barometers have found that distrust of social leaders has increased and distrust of information sources is at a remains a major hurdle, public bank in pharmacy is more important than ever.

* Pharmacists are named banded professionals in national surveys. According to the recent survey, scientists, educators, are the most banded people in the world.

DEVELOPMENT OF PHARMACY

⇒ The interdependence between pharmacy and medicines is countless

⇒ During Vedic time, medical treatment was associated with religious services

⇒ Hindu Medicines (Ayurvedic Medicines):

Atharva Veda: contains the list of diseases with their symptoms in the form of incantation.

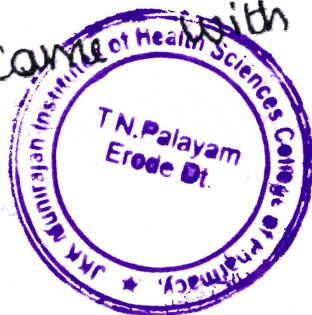

⇒ Ayurveda: The science of longevity is appended to Atharva Veda

⇒ Rig Veda: medicinal herbs are described water is best used.

⇒ Muslim brought their own system of medicines.

⇒ During the 18th century the systems of medicines were advanced.

⇒ Came with hospital organization

JKK Munirajah Institute of Health Science
College of Pharmacy, T.N. Palayam,
Gobi (Tk), Erode (Dt) - 638 508

⇒ British brought their Allopathic system of medicines

PHARMACEUTICAL EDUCATION (Started

▲ In those days Pharmacy education was started in India.

▲ Some pharmaceutical associations were formed.

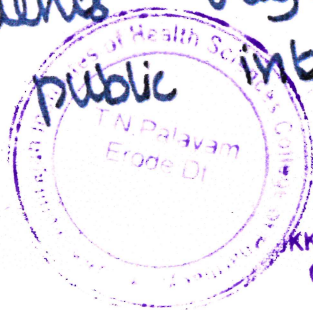

▲ The specialization affected the separation of pharmacy and medicines.

▲ Physician: To diagnose and prescribe

▲ Pharmacist: To prescribe and Dispense medicines.

PHARMACIST

During last 5-6 decades, with advancement in science and technology, the responsibility of pharmacist is increased to give the information to the prescriber and the patients regarding the use, side effects, etc.. in public interest.

● Pharmacist is legally considered responsible for quality of drugs that's why law requires some restriction on distribution of drugs.

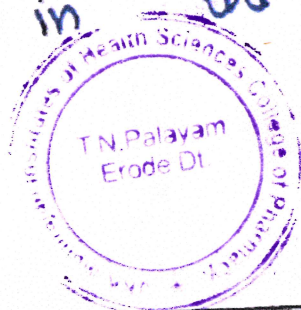

● Accordingly pharmacy education is no exempted.

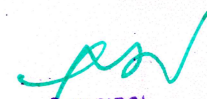

ROLE OF PHARMACIST IN HEALTH CARE SYSTEM

* All the pharmacists working in different fields of profession are directly or indirectly related in nations health.

* Community pharmacist and hospital pharmacists are health professionals for safe and effective use of drugs.

* Pharmacy occupies an important position in the health care system.

CONCLUSION

In nutshell the pharmacist is responsible for ensuring that the right patient is receiving the right medicine in the right dose for the right condition in the right dosage form and at right frequency and he is considered as an integral part of Health Care System.

I Really proud to be a pharmacist.
and maintain the best of people in our field.
