organized by Five Days Faculty Development Program
"TRAINING ON HANDLING OF INSTRUMENTS"

EVENT REPORT

The Faculty Development Program on the topic of **"TRAINING ON HANDLING OF INSTRUMENTS"** has been organized by JKKMIHSCP, T.N. PALAYAM to all the faculty members from 14.09.2020 to 18.09.2020.

The program began with welcome address followed by introduction of the speakers involved in the program.

The FDP was attended by faculties of JKKMIHSCP, T.N. Palayam.

The guest speakers gave some knowledge about hands on training on analytical instrumentation such as LCMS, Gas chromatography, UV and FT-IR. They also provide information about dissolution apparatus and capsule filling machine. The speakers also clarifying doubts about some instruments like UV, FT-IR, HPLC and LCMS.

OUTCOMES:

In this Faculty Development Program, the participants were essential for designing, delivering and evaluating effective training on handling of analytical instruments that aligns with goals of needs. Through this FDP, participants may learn to assess the effectiveness and usefulness of the instrument's methodology. The primary outcome of this FDP was to purposefully reflect upon their experiences. They may learn a strong sense of identity, connection and contribution with their world, a strong sense of wellbeing, confident and involved learners and also effective communicators. Another outcome of this FDP was, that articulate at the beginning, what the participants should know, be able to do, or value as a result of taking a course or completing a program. Also, the participants may learn about the cognitive, affective and psychomotor domains.

Finally, the session was ended with queries and we got clarification about the topics. We felt very happy and grasped more knowledge about the topics.

JKK MUNIRAJAH INSTITUTE OF HEALTH SCIENCES COLLEGE OF PHARMACY

organized Five Days Faculty Development Program on the topic of

"TERMINOLOGIES OF DRUG ACTIONS"

EVENT REPORT

The Faculty Development Program on the topic of **"TERMINOLOGY OF DRUG ACTIONS"** has been organized by JKKMIHSCP, T.N. PALAYAM to all the faculty members from 22.02.2021 to 26.02.2021.

The program began with welcome address followed by introduction of the speaker's involved in the program.

The FDP was attended by interested faculties of JKKMIHSCP, T.N. Palayam.

The guest speakers gave some information about the additive actions and idio synergistic actions. They also explain about some processes like tolerance, synergism, side effects and toxic effects. They also gave some knowledge about toxicology and contraindications of drugs.

OUTCOMES:

In this Faculty Development Program, speakers define about the fabrication of objects by successive consolidation of materials, layer by layer according to a three-dimensional design. The speakers also explain about the idiosyncratic drug reactions that area significant problem and a better understanding would facilitate the prevention and treatment of drugs. They also explain the synergistic actions that get a greater effect by combining two or more products together than would get by adding the effects of each. Speakers can also explain about the tolerance of drug actions, side effects, toxic effects, contraindications and toxicology of drug actions. Through this FDP, all the participants can get a clear knowledge about the terminologies which are present in drug actions.

Finally, the session was ended with queries and we got the clarification about the topics. We felt very happy and grasped more knowledge about the topics.

TWO DAYS TRAINING PROGRAM FOR NON-TEACHING STAFFS ON THETOPIC OF "LAB SAFETY AND LAB PROCEDURES MANUAL GUIDELINES"

EVENT REPORT

Aim and Objectives of the Program:

- To ensure the safety and well-being of all personnel and maintain a secure working environment in laboratory settings.
- Equip staff with the knowledge and skills to respond effectively to lab emergencies, include, fires, spills, and injuries.
- Educate non-teaching staffs on the safe storage, handling, and disposal of chemicals.
- Instruct on proper waste disposal procedures, including hazardous waste disposal.

Program Outcomes:

- Non-teaching staffs can identify the common laboratory hazards, such as chemical, biological, and physical risks.
- Promote good laboratory hygiene practices to prevent contamination and maintain a clean and organized work environment.
- Ensure that the non-teaching staffs know how to use and maintain personal protective equipment, including lab coats, gloves, and safety goggles.
- Participants will understand and adhere to lab safety protocols, reducing the risk of accidents and injuries.
- Compliance with regulatory standards.
- Greater confidence among non-teaching staff in handling lab tasks.
- Enhanced emergency response capabilities.
